25-september-2023

Time	Activity Summary
09:00 – 11:00	The teachers met and got a tour of the school, history about the founder and insights into the values of the Italian school system!
11:00 – 13:00	The teachers shared their insights towards social inclusion with focus on covid. Active learning was quickly raised as an important part of online school, we confirmed by looking at the Canva-posters from WP2, from the students.
14:00 – 15:30	The teachers got shown all the different fields of study's that Valdocco Vocational Training Center had to offer. The focus was on how different many of our subject were and how they would need different solutions during a lockdown

26-september-2023

Time	Activity Summary
09:00 – 11:00	Guest speaker Melissa Zalaya from UN/FN came and talked about how to engage students via storytelling. She made points about, it being easy to be misunderstood in an online meeting and via messages. Each teacher pair had to make a video, with storytelling in mind
11:00 – 13:00	The videos were shown from last assignment, there was talking about misunderstandings and entertainment factors.
14:00 – 15:30	The teachers brainstormed ideas on how to make (online) lectures and classes more exiting and how to create more motivation from the students. Creativity and gamification were presented as being more inclusive and motivating. Findings is written in the word documents

27-september-2023

Time	Activity Summary
09:00 – 11:00	Recap of lessons from yesterday, the conclusion was that video is a strong tool for both teacher and students, to present their findings. Alessia Colombo was guest speaking about “ Engaging ways of teaching and learning in online settings ” – Keypoints were <i>empathy, active learning, flexibility & personalized learning process</i>
11:00 – 13:00	The teachers discussed the lecture from the morning and had to evaluate their own online classes from covid. Many did already do some of the to include the students and make their lessons more engaging, but everyone agreed that there was room for improvement in their online learning processes
14:00 – 15:30	In groups of 3, the teachers had to redesign their lesson to be more student-controlled for them to have a personalized learning process. It was summed up from each group in the word-files

28-september-2023

Time	Activity Summary
09:00 – 11:00	Recap of lessons from yesterday, the conclusion was that it was hard to make a more personalized learning process, especially with students that were had diagnoses or were struggling. Today’s subject was Gamification, Sergio Ligato was guest speaker, with the following presentation – he had many points about how to create a more active learning experience and making learning more engaging. He brought the Octalysis template for the teachers in the next part
11:00 – 13:00	Each group of teachers had to make 3 Octalysis diagrams based on their own teaching. First comparing and learning from each other in the group and afterwards in front of everyone. The teachers were surprised of their own distribution and got ideas from each other on how to make setting focus on the subjects they weren’t scoring well on.
14:00 – 15:30	Each group documented their findings in the word files

29-september-2023

Time	Activity Summary
09:00 – 11:00	The lessons from the 4 days were summed up and presented. The teachers felt they got many new tools and inspiration especially from the guest speakers and their knowledge. The presentations were edit with general advice on how to make a more active and engaging online learning experience (Serigo and Alessias slides).
11:00 – 13:00	Certifications and final remarks were made, next WP in Norway was discussed.
